Announcement

dormakaba would like to remind customers still using the Ilco FDC (Front Desk Controller), that this product was discontinued in 2000. As of 2005, we terminated repair services on the FDC. After this date all FDC customers in need of replacement or repair upgraded to the latest front desk unit, FDU. Initially this was the FDU G3 which was subsequently replaced by the FDU G4.

Recommendation - Upgrade Path

Customers who still use the FDU G3 will need to ensure that they upgrade to the FDU G4.

To reduce the risks associated to the emergency replacement of your unit, which is critical component of your dormakaba system, you highly invite you today to contact our customer service team to **buy a FDU G4:**

Email: custservice.lgs.ca@dormakaba.com

Phone: 1-877-468-3555 – option 2

Ideal for small to mid-sized hotels, the FDU G4 provides comprehensive access control management in one unit with minimal desk footprint. Quickly manage front desk key creation, lock programming and auditing and reporting from a single unit.

For more information on FDU G4, please visit our website:
